

## Wallbarn - Technical Datasheet

### EPDM Corner Outlet - Round Shank

#### Product Description

EPDM corner outlets are designed for connecting waterproof roofing membranes to rainwater drains located near walls. These fittings bends with gaskets, ensuring a reliable seal.

Additionally, they can function as vertical rainwater drains. The fittings include a smooth flange, which aids adhesion to the waterproof membranes. The flange is also equipped with holes to improve mechanical fixing to reinforced concrete and walls, ensuring a clean installation.

#### Compatibility

They are compatible with prefabricated synthetic membranes in EPDM.

#### Performance

Resistant to deterioration by the sun, ozone and normal atmospheric conditions. They have excellent flexibility even at low temperatures and will not become brittle. The mechanical properties are maintained in the long term.

#### Operating Temperatures

-20°C; +75°C

#### Recycled Product

No

#### Material

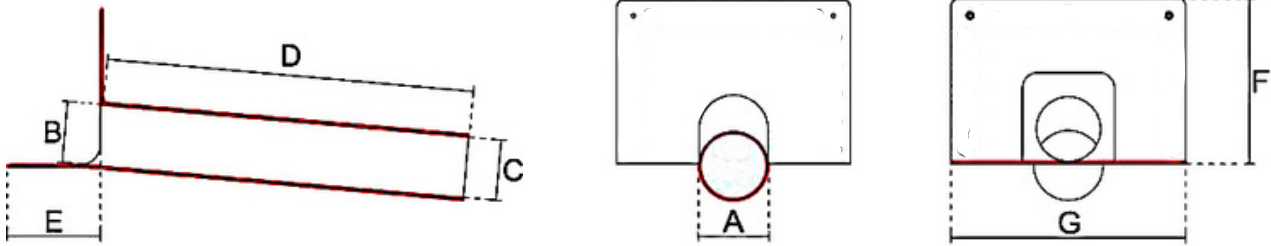

EPDM

#### Recyclable

Yes
