

## Wallbarn - Technical Datasheet

### Jubilee Clips

#### Product Description

The stainless steel Jubilee Clip pipe clamp is made from a pressed ring band with rounded edges to prevent damage to the shank of the collar. The Jubilee Clip is used to fit around collars and to circular bends / sleeves / joint sealers connected to the spigot pipes of Wallbarn drainage outlets.

Place around the circular surface and turn the key using a screwdriver to tighten the strap. It is made from AISI 304 grade stainless steel to ensure long term durability and clamping properties over the long term.

#### Compatibility

The pipe clamps can be used with any kind of round collar.

#### Range

8 Different size adjustable Jubilee Clips ranging in diameters from 8mm to 165mm.

#### Performance

Good corrosion resistance (salt spray min 240 h) W4 AISI 304.

#### Operating Temperatures

N/A

#### Recycled Product

No

#### Material

Stainless Steel AISI 304

#### Recyclable

Yes

#### Additional Information

Testing and tightening torques in accordance with DIN 3017:

Pair of use 3 + 0.5 Nm

Test torque 4 Nm

Screwing-load 0.7 Nm

Hex screw, 7 mm wrench
