TPE Corner Outlet - Round Shank

Product Description

Through wall or corner fittings are used to connect bituminous waterproof roofing felt to rain water drains placed close to walls through bends for form a long term seal. They have a rough flange which is perforated to improve the watertight bond.

The outlet is bonded in the sandwich method where it is bonded between two layers of waterproofing membrane for and over-and-under seal. The perforations in the the flange also improve mechanical fixing to the reinforced concrete and to the wall. They can also be used in horizontal and vertical rain water drains.

Compatibility

They are compatible with APP and SBS prefabricated bituminous felts and liquid bituminous membranes.

Performance

Resistant to deterioration by the sun, ozone and normal atmospheric conditions. They have excellent flexibility even at low temperatures and will not become brittle. The mechanical properties are maintained in the long term.

Operating Temperatures

-20°C; +70°C

Recycled Product

No

Material

TPE

Recyclable

Yes
